

Mathilde Perez

✉ mathilde.perez@telecom-paris.fr 📍 Palaiseau, France

Education

Télécom Paris , Graph Learning, Fairness in AI - Fairness constraints on evolutionary graph learning models - Evaluation framework for biased vs. unbiased link prediction models - Organization committee — Ellis PhD Symposium 2024 - Teaching assistant — Télécom Paris - Lab visit — IDLab, Ghent University	Palaiseau, France Sept 2023 – present
Université Paul Sabatier , Applied Mathematics for Engineering, Industry and Innovation - AI, Deep Learning, Machine Learning, Big Data, image processing - Optimization, Statistics, Stochastic Simulations, PDEs, Signal Processing	Toulouse, France 2020 – 2022
Université Paul Sabatier , Applied Mathematics	Toulouse, France 2017 – 2020
Lycée des Arènes , Sciences Honors (Mention Bien), European English section	Toulouse, France 2016 – 2016

Experience

Télécom Paris , Research Engineer Simulation of temporal graphs with Hawkes processes	Palaiseau, France Apr 2023 – Sept 2023 6 months
ISIR — Sorbonne / CNRS , Human-Computer Interaction Intern Modeling social attention through gaze in a conversational agent (Greta platform)	Paris, France Apr 2022 – Oct 2022 7 months
CerCo — CNRS , NLP Intern Similarities between CLIP and the brain	Purpan, France May 2021 – July 2021 3 months

Oral Presentations

- SimHawNet: a modified Hawkes process for temporal network simulation** — ECML-PKDD 2025, Porto, Portugal
 - [Slides](#)
- SimHawNet: a modified Hawkes process for temporal network simulation** — CAp 2024, Paris, France

Skills

Programming

Machine Learning & AI

Languages
